What Adrastia Is

Our mission

Adrastia™ protects people and organizations by proving what happened, so every victim has a real path to justice, restitution, and closure.

What we stand for: Evidence first · Speed saves money · Within the law, always · No one is above review · Victims are never left in the dark · Stronger together

Purpose

Adrastia proves what happened when something goes wrong. It seals evidence the moment it is captured, keeps a chain of custody anyone can check, and turns it into records police, insurers and courts can use. It also helps stop fraud and scams before money moves, traces fraud back to its source, keeps agreements honest, and keeps a business running through an outage.

Consumers	Businesses	Their clients
Families, scam victims, tenants, workers and policyholders. • Check a call, text, email or picture for scam signs (Scam Check). • Start a sealed Victim's Clock after a fraud and track every report made. • Keep sealed agreements with a contractor, landlord or co-parent (Oathcrest). • Record where personal data shows up online and every opt-out sent. • Hold their own sealed copy of a workplace report, move-in record or insurance claim.	*Investigators, attorneys, insurers, small firms, nonprofits, churches and agencies.* • Seal field and desk evidence and produce court-ready reports (HQ). • Spot risky payments, scams, intruders and outages, and act on them (Aegis). • Trace a fraud back to its front door and hand a sealed package to police, a bank or a court. • Call payees back before money moves (Antiphon); keep sealed workplace, rental and claim records. • Keep the business supervised when the owner is out (Continuity Vault).	*The people a business serves: clients, attorneys, adjusters, tenants, workers, payees.* • Free Viewer seats to read a case, its evidence and its custody log. • Check any sealed package or record themselves, free, without an account. • Get receipts: complaint receipts, payee callback receipts, their own party copy. • Join Oathcrest agreements free and confirm or dispute each point. • See where their matter stands without being left in the dark.

What it is designed to do

- Capture and seal evidence the moment it is collected.
- Keep a chain of custody that checks itself.
- Protect people and businesses from fraud and scams before money moves.
- Trace fraud lawfully to its source and hand police, insurers and courts a package they can check.
- Keep agreements honest with one sealed record every side sees.
- Keep the business running and supervised through outages and absences.

A seal proves a record has not changed since it was added. It does not prove what happened before it was added. Adrastia's methods are patent-pending.

Antiphon (plug-in)

A guide to Antiphon. Status: LIVE as of November 13, 2026.

What it is

Adrastia Antiphon is a sealed payment callback for title, escrow and settlement companies. Before money goes to new or changed bank details, staff call the payee back at a contact that was on file before the request came in. A release check gives a sealed pass or fail.

Who it's for

- Title and escrow officers
- Settlement and closing staff
- Company admins setting the rules
- Payees who confirm through a receipt link

The problem it solves

A day before closing, an email “from the seller” asks to wire proceeds to a new bank. The email is fake. Antiphon only allows a callback to a trusted contact sealed before the request, and the release check fails until a verified callback is on file.

How it works

1. Add payees and seal their trusted contacts early.
2. Log every change request or payment about to go.
3. Make the callback to the trusted contact and record it.
4. Get a second approval if your company requires one, then Run release check.
5. After sending, seal payment sent and confirm the funds arrived; the alarm sounds if nobody confirms.

Getting started

- Request a pilot at adrastiaantiphon.com (free 30 days).
- Sign in > Create your company, then Payees > Add a payee.
- Help: Help link on the site (Antiphon user manual).

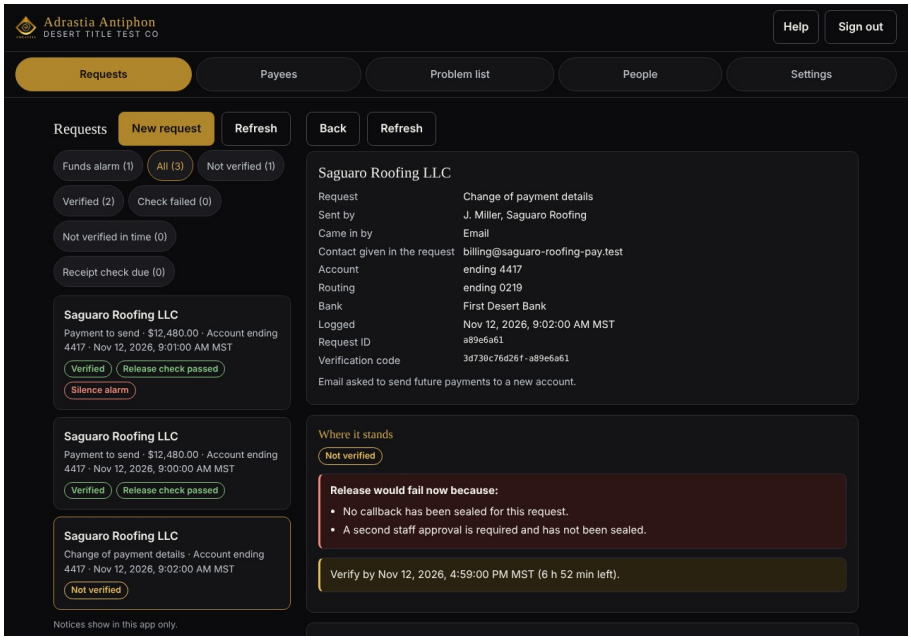

How it connects to the rest of Adrastia

Antiphon uses the same sign-in as HQ, and its ID check opens the shared Adrastia ID check page.

Antiphon (plug-in): every component

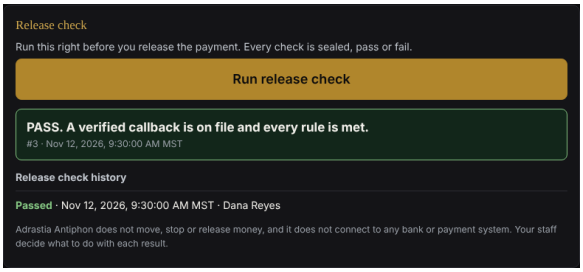

A sealed payment callback for title, escrow and settlement companies. Before money goes to new or changed bank details, staff call the payee back at a contact that was on file first. Plug-ins share the HQ sign-in and can sit inside another company's app. Every plug-in starts with a free 30-day pilot (Request a pilot on its site). Anyone can check a record at the site's /verify/ page, free, without an account. Status: LIVE.

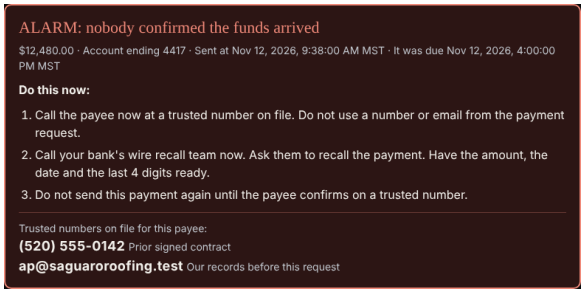

Payees and requests

Name on screen	What it is · what it does for you	Where	How to get there · notes
Payees / Add a payee	Your list of payees. **Use:** Add the seller's attorney before closing.	Desk	Payees tab > Add a payee
Seal a trusted contact	A phone or email you had before any change request. **Use:** Seal the number from the signed contract.	Desk	Payees > the payee *Do this before a request comes in.*
Retire a trusted contact	Marks an old contact Retired; it stays in the record. **Use:** Retire a number that changed.	Desk	Payees > the payee
Requests / New request	Log every request to change payment details and every payment about to go. **Use:** Log an email asking to wire to a new bank.	Desk	Requests tab > New request
Request filters	Funds alarm, All, Not verified, Verified, Check failed, Not verified in time, Receipt check due. **Use:** See what still needs a callback.	Desk	Requests tab

Callback, release and funds

Name on screen	What it is · what it does for you	Where	How to get there · notes
Callback	Record the call you made to the trusted contact. **Use:** The seller confirms the account by phone.	Desk	Open the request > Callback *Never use a number from the request.*
Second approval	A second staff member approves after the callback. **Use:** Two people sign off on a large wire.	Desk	Open the request > Second approval *If turned on in Settings.*
Run release check	A sealed pass or fail right before you release money. **Use:** PASS: a verified callback is on file.	Desk	Open the request > Release check
Funds arrival check	Seal payment sent; the payee or staff confirm it arrived. **Use:** The seller confirms receipt.	Desk	Open the request > Funds arrival check
Funds alarm	A red alarm when nobody confirms funds in time. **Use:** Call the bank's recall team right away.	Desk	Top of the request; Funds alarm filter
Receipt link for the payee	A link the payee opens to confirm it was them. **Use:** The seller reports they got no call.	Both	Record tools > Receipt link for the payee *No account needed.*
Identity check	Compares the last 4 of the ID number and the phone at each stage; Match or Mismatch. **Use:** Catch a changed phone number.	Desk	The payee or request > Identity check *Typed values kept as fingerprints.*
Didit face and ID check	Opens the Adrastia ID check page for a face and ID check. **Use:** Confirm a new payee in person.	Both	Identity check > Didit face and ID check *Outside provider (Didit).*
Problem list	Your own list of bad numbers, emails and accounts. **Use:** Flag a known scam account.	Desk	Problem list tab *Never shared with other companies.*
Callback panel in your app	Shows the callback form inside your own software. **Use:** Staff never leave your title software.	Desk	Settings > Sites allowed to show the callback panel *Your developer adds it.*
Request a pilot	Asks Adrastia for a free 30-day pilot. **Use:** Try it with one office first.	Desk	adrastiaantiphon.com > Request a pilot *Licensed, never sold.*
Create your company / Join with an invite code	The first person creates the company; others join with a 48-character code. **Use:** Add your staff in minutes.	Desk	adrastiaantiphon.com > Sign in
People	Invite staff by email and give each a role. **Use:** Add a second staff member.	Desk	People tab *Admin only.*
Settings	Response window and the sites allowed to show the screen inside your app. **Use:** Set a 48-hour reply window.	Desk	Settings tab *Admin only.*
Verify / Check a record	Checks a record, form or file; PASS means nothing changed. **Use:** An attorney checks the record you sent.	Both	adrastiaantiphon.com/verify/ *Files are not uploaded.*

Quick answers

Question	Answer
Does Antiphon move money?	No. It does not move, stop or release money or connect to your bank.
Can I call the number in the request?	No. The callback can only use a contact sealed before the request.
What if the funds never arrive?	The funds alarm goes off; call the payee at a trusted number and your bank's recall team.
Is our problem list shared?	No. It is only your company's list.
