What Adrastia Is

Our mission

Adrastia™ protects people and organizations by proving what happened, so every victim has a real path to justice, restitution, and closure.

What we stand for: Evidence first · Speed saves money · Within the law, always · No one is above review · Victims are never left in the dark · Stronger together

Purpose

Adrastia proves what happened when something goes wrong. It seals evidence the moment it is captured, keeps a chain of custody anyone can check, and turns it into records police, insurers and courts can use. It also helps stop fraud and scams before money moves, traces fraud back to its source, keeps agreements honest, and keeps a business running through an outage.

Consumers	Businesses	Their clients
Families, scam victims, tenants, workers and policyholders. • Check a call, text, email or picture for scam signs (Scam Check). • Start a sealed Victim's Clock after a fraud and track every report made. • Keep sealed agreements with a contractor, landlord or co-parent (Oathcrest). • Record where personal data shows up online and every opt-out sent. • Hold their own sealed copy of a workplace report, move-in record or insurance claim.	*Investigators, attorneys, insurers, small firms, nonprofits, churches and agencies.* • Seal field and desk evidence and produce court-ready reports (HQ). • Spot risky payments, scams, intruders and outages, and act on them (Aegis). • Trace a fraud back to its front door and hand a sealed package to police, a bank or a court. • Call payees back before money moves (Antiphon); keep sealed workplace, rental and claim records. • Keep the business supervised when the owner is out (Continuity Vault).	*The people a business serves: clients, attorneys, adjusters, tenants, workers, payees.* • Free Viewer seats to read a case, its evidence and its custody log. • Check any sealed package or record themselves, free, without an account. • Get receipts: complaint receipts, payee callback receipts, their own party copy. • Join Oathcrest agreements free and confirm or dispute each point. • See where their matter stands without being left in the dark.

What it is designed to do

- Capture and seal evidence the moment it is collected.
- Keep a chain of custody that checks itself.
- Protect people and businesses from fraud and scams before money moves.
- Trace fraud lawfully to its source and hand police, insurers and courts a package they can check.
- Keep agreements honest with one sealed record every side sees.
- Keep the business running and supervised through outages and absences.

A seal proves a record has not changed since it was added. It does not prove what happened before it was added. Adrastia's methods are patent-pending.

Histor (plug-in)

A guide to Histor. Status: LIVE as of November 13, 2026.

What it is

Adrastia Histor is a sealed workplace report screen for workers, with an employer console. Workers report an injury, near miss, hazard, complaint or workers' comp claim on their phone. Worker and employer hold the same sealed record.

Who it's for

- Workers, including staffing-agency workers
- Employers, HR and safety managers
- Staffing agencies
- Software companies that place it inside their own app

The problem it solves

A worker reports a wet floor, slips a week later, and then has hours cut. Each side remembers it differently. Histor seals the report, every reply, and every schedule or pay change on a timeline from the report day, so both sides see the same facts.

How it works

1. The employer creates the company and invites workers and staff.
2. A worker files a New report on the phone and adds photos or notes.
3. Staff reply, set the status and seal any job events.
4. Both sides see deadlines and the full record.
5. Either side downloads a copy or proof packet; anyone can check it at the verify page.

Getting started

- Request a pilot at adrastiahistor.com (free 30 days).
- Staff: Sign in > Create your company. Workers: open the worker screen your company gives you.
- Help: Help link on the site (Histor user manual).

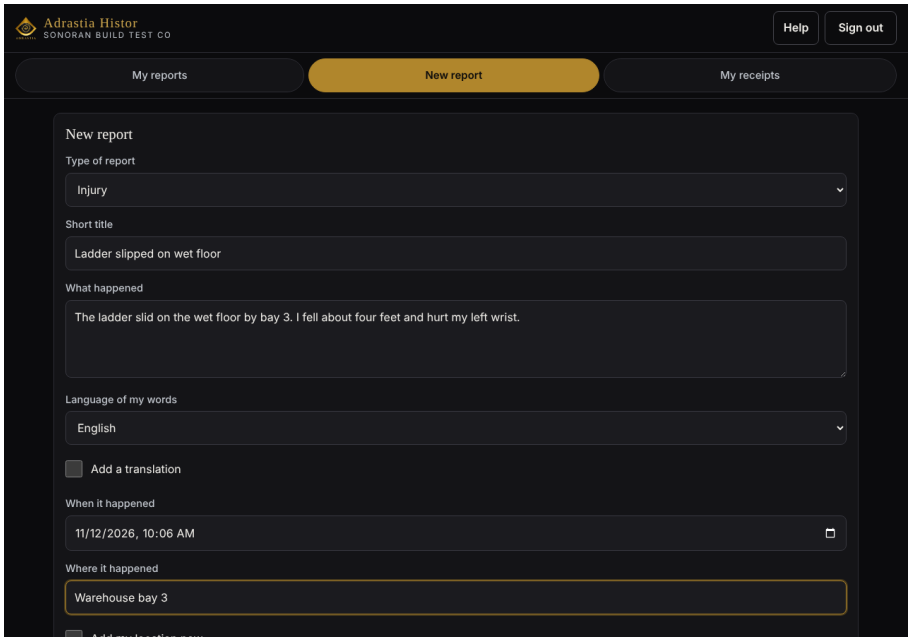

How it connects to the rest of Adrastia

Histor uses the same sign-in as HQ, and its records are sealed and checked the same way.

Histor (plug-in): every component

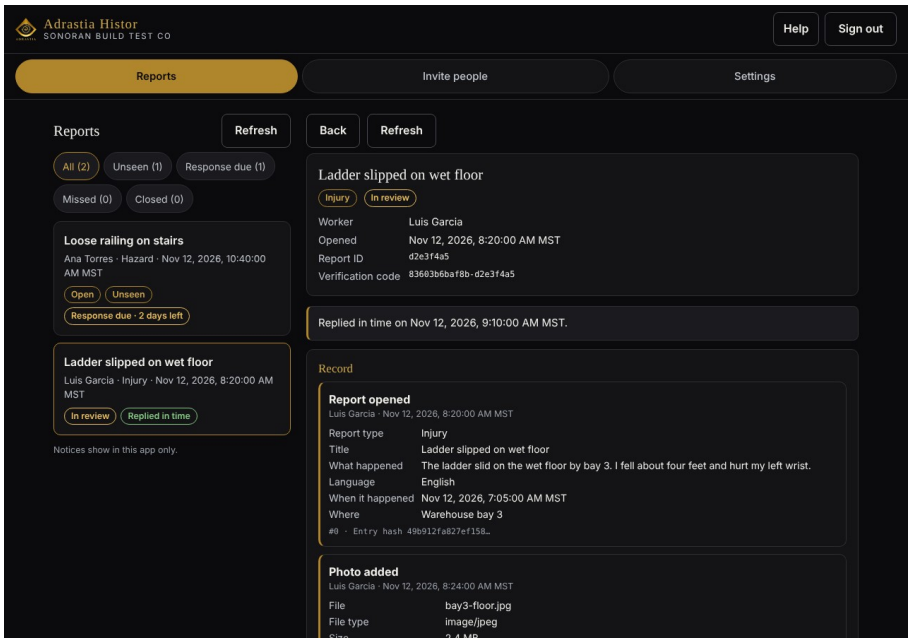

Sealed workplace reports. Workers report on the phone; worker and employer hold the same record. Plug-ins share the HQ sign-in and can sit inside another company's app. Every plug-in starts with a free 30-day pilot (Request a pilot on its site). Anyone can check a record at the site's /verify/ page, free, without an account. Status: LIVE.
